## Publish goods interface

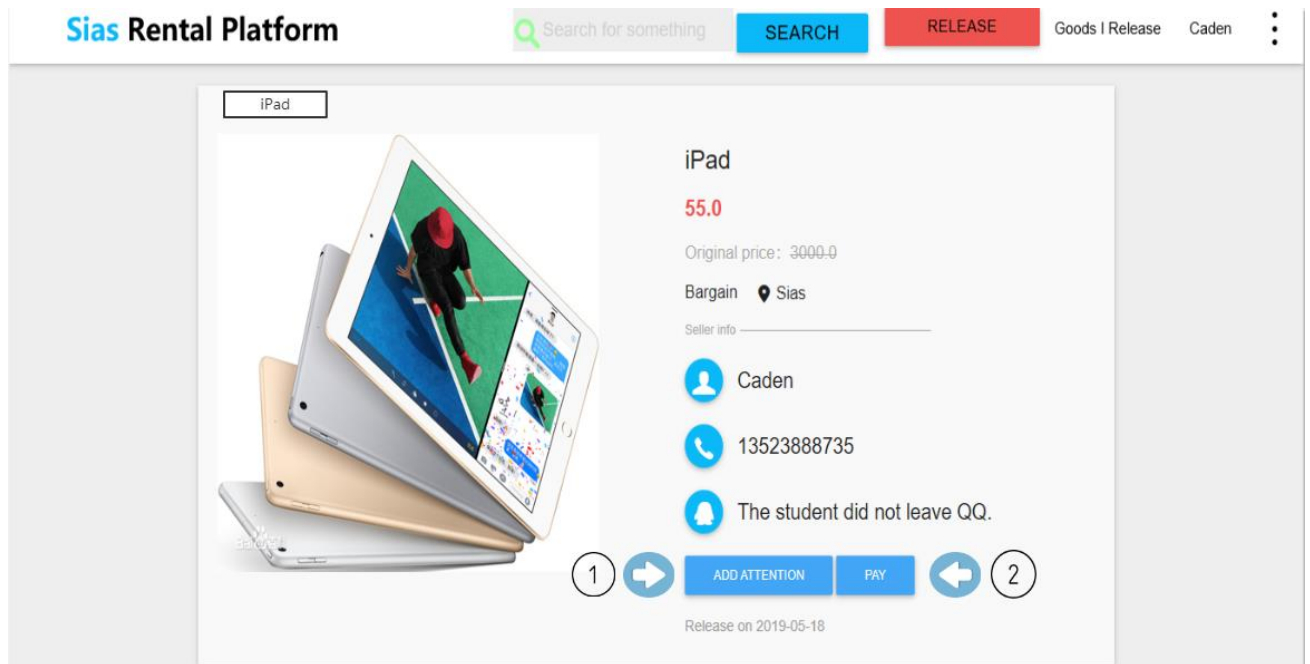

The screenshot shows the 'Released' interface of the SIAS RENTAL PLATFORM. On the left is a user profile for 'Caden' with a panda avatar, a wallet balance of ¥0.0, and a credit score of 100. Below this are navigation links: Order center, Attention list, Released, Idle, and settings. The main form area is titled 'Released' and contains the following fields and callouts:

- Item name :** A text input field with placeholder 'Please inputItem name' and a red asterisk indicating it is required. Callout 1 points to this field.
- Rental price :** A text input field with placeholder 'Please inputRental price' and a red asterisk indicating it is required. Callout 2 points to this field.
- Original price :** A text input field with placeholder 'Please inputOriginal price' and a green note '(\*Please fill in the form truthfully.)'. Callout 3 points to this field.
- Item category :** A dropdown menu currently showing 'Electronics'. Callout 4 points to the dropdown arrow.
- Commodity Description :** A large text area for description. Callout 5 points to the bottom right of this area.
- Commodity pictures :** A file upload area with a large box containing the text '拖拽文件到这里 ... 支持多文件同时上传' (Drag files here ... support multiple files upload at the same time). Callout 6 points to the bottom right of this area. Below the box is a file selection icon (a folder with a plus sign) and a blue 'Released' button. Callout 7 points to the file selection icon, and callout 8 points to the 'Released' button.

- ① Input the product name
- ② Input the product rental price
- ③ Input the product original price

- ④ Select category
- ⑤ product description
- ⑥ Choose a picture about your product
